The Department of Political Science offers a broad range of courses organized in six traditional subfields of political science, each with their own designated faculty members: comparative politics, formal theory and methodology, international relations, public policy, political theory, and United States politics. Faculty members employ varied theoretical and methodological approaches but share the pursuit of answers to questions with real-world implications. Political science majors or minors gain a thorough understanding of how power, politics, and people converge. To add depth and context to academic offerings, the department sponsors distinguished speakers—experts in fields such as foreign policy, political theory, and international relations.

Careers

An undergraduate degree in political science provides a strong foundation for any number of career choices. With the analytical and communication skills mastered while earning a political science degree, students may pursue a career in government at the local, state, or federal levels, at nonprofit organizations, nongovernmental organizations, or private industries. Recent surveys indicate that students who combine university studies with either work or internships in local government agencies are more likely than majors without such experience to obtain government employment after graduation.

Political science graduates may also continue on to graduate education, especially in the fields of law, international studies, business administration, or advanced studies in political science.

Undergraduate Studies

The Department of Political Science offers a program leading to a bachelor of science (BS) or a bachelor of arts (BA) degree. This program is designed to

1. provide a systematic understanding of the political process
2. provide a basic background for students preparing for careers in local, state, and national government as well as in law, journalism, and teaching
3. prepare students for graduate work leading to professional careers in political science

Bachelor's Degree

Courses at the 100 and 200 levels are introductory, basic to building a major in political science. Courses at the 300 level introduce the chief areas and concerns of political science. Advanced and specialized courses are at the 400 level. A minimum of 32 credits must be upper division.

At the discretion of the instructor, certain 300- and 400-level courses may have prerequisites. Students are advised to have at least 8 credits in political science before taking 400-level courses.

Undergraduate majors focus their study in four subfields: comparative politics, international relations, political theory, and United States politics.

Freshmen and Transfer Students

There are no departmental requirements for entering freshmen. Students planning to transfer to the university from two-year colleges should take the basic introductory political science courses offered at those institutions. At least 20 credits in upper-division graded political science courses must be completed in residence at the University of Oregon to qualify for a BA or BS degree in political science. Transfer students must meet the subfield distribution requirement.

Second Bachelor’s Degree or Second Major

Students who want to earn a second bachelor’s degree or a second or double major in political science must complete 48 credits in political science, as outlined under Bachelor of Arts Degree Requirements (p. 2) or Bachelor of Science Degree Requirements (p. 2). Students who are considering a second bachelor’s degree and have prior political science credits should consult with the undergraduate advisor, John Davidson. Some of these prior credits may not be applicable to the second bachelor’s degree.

Honors in Political Science

Political science majors who have reached junior standing and meet GPA minimums are eligible to graduate with honors. The honors program typically spans the spring term of a student’s junior year to the spring term of the senior year. GPA minimums must be maintained to participate—an overall grade point average for UO and transfer credits of at least 3.50, plus a 3.70 GPA or above in the political science major. Students must successfully complete Honors Thesis Prospectus (PS 411) during fall term of the academic year in which the thesis is completed, then register for 4 credits in Thesis (PS 403) in the following winter term. Honors students select a thesis advisor and reader; the advisor supervises and grades the thesis course. The thesis advisor and reader determines if the thesis is approved for honors distinction after eligibility is determined prior to graduation.
