## Facilities

The School of Music and Dance's five-unit building complex includes the 540-seat Beall Concert Hall, acclaimed for its superb acoustics; separate band, choir, and orchestra rehearsal rooms with support facilities; practice rooms; a small recital hall; studio offices, classrooms, and seminar rooms.

In 2008, two new wings were added to the MarAbel B. Frohnmayer Music Building, containing state-of-the-art, acoustically isolated teaching studios, classrooms, and practice rooms. The Leona DeArmond Academic Wing provides studios for the Suzuki Strings Program, a music education teaching laboratory, twenty-eight teaching studios, classrooms, and practice rooms. The Thelma Schnitzer Performance Wing contains a symphony-size rehearsal hall, dedicated rehearsal spaces for jazz and percussion studies, a recording studio, and additional practice rooms. Significant renovations were also made to the existing facilities.

Collier House—the second-oldest building on the UO campus—has been added to the list of the school's facilities. Built in 1885–86 by the Collier family, it is a rare example of a late Victorian house in bracketed style, with an Italianate-style interior popular in the Northwest in the late 1800s. Both the house and grounds are listed on the Inventory of Historic Sites and Structures. It has been a residence for a university president and a chancellor, a faculty club, a restaurant, and a meeting house–pub. In August 2004, music history faculty offices and the Early Music Program were moved to Collier House. A variety of courses, seminars, meetings, recitals, and programs are held there.

Music Services, located on the third floor of Knight Library, contains more than 41,000 recordings and 1,000 serials, including composers' complete works, music reference resources, current and bound periodicals, interactive music CD-ROM programs, and a collection of more than 27,000 books and 51,000 scores. The Audio and Video Room (the Douglass Room) holds recordings (LPs, cassettes, and compact disks). Facilities include listening carrels with remote-control capability, individual listening rooms, and two group-listening rooms. The score and record collections' strengths include music by Oregon composers, women composers, and contemporary publications provided by approval plans for recently published North American and European scores. The book collection includes a large German-language collection as well as standard music resources and most university press publications. Reference service to the collection is provided by Music Services. The complete music and recording collections are included in the UO Libraries online catalog (<http://libweb.uoregon.edu>).

The School of Music and Dance houses two pipe organs, including a nationally recognized organ by Jürgen Ahrend of East Friesland, Germany—a concert instrument unique in America—and a two-manual tracker organ by David Petty and Associates. Two of the five harpsichords available for student use are French doubles by William Dowd. The others are a German double by Keith Hill, an Italian by Owen Daly, and a Zuckerman single harpsichord. Other keyboard instruments

include four Steinway and one Baldwin concert grand pianos, two clavichords, pianos in each classroom and practice room, and a modern group piano laboratory featuring Roland digital keyboards.

Future Music Oregon features a suite of outstanding studios for electroacoustic and new media composition that provide powerful, high-quality environments in which students learn and create. Studios are equipped with current software, digital mixers, and game controllers, with sensor-based interfaces for technological and artistic exploration.

The university owns an extensive collection of orchestral and band instruments and a distinctive collection of ethnic instruments and reproductions of early musical instruments.

The Pacific Rim Gamelan performs on the beautiful instruments of Gamelan Suranadi Sari Indra Putra, donated to the school in 1986 by John and Claudia Lynn of Eugene. The ensemble is a multicultural composing and performing orchestra, and works composed by its members use instruments from around the world as well as gamelan instruments.

Kyai Tunjung Mulya ("Noble Lotus Blossom") is a complete central Javanese court gamelan orchestra, consisting of more than eighty iron, brass, bronze, teak, and bamboo instruments. Classes and workshops in Javanese gamelan music are taught periodically by visiting musicians from Indonesia.

The Kammerer Computer Laboratory offers students the opportunity to become familiar with a variety of mainstream software for music notation as well as instructional software in music theory and aural skills. Other resources in the lab include MIDI (musical instrument digital interface), sound-generating and sequencing software programs; access to the Internet; e-mail; Microsoft Office applications; and Adobe graphic editing programs for academic use, exploration, and development of computer skills. The lab is equipped for digital audio editing. Our current software listing is Max/MSP, Microsoft Office, Apple Logic Studio, Apple Final Cut, Finale, and Sibelius.

## Concerts and Recitals

More than 250 concerts and recitals are presented on campus throughout the year by visiting artists, members of the School of Music and Dance faculty (Faculty Artist Series), and more than 40 student ensembles. Other regularly scheduled concerts include performances by internationally famous artists sponsored by the Chamber Music at Beall series and the World Music Series.

Hosted events include the Northwest Percussion Festival, Northwest Horn Society regional symposium, International Tuba Euphonium Association Northwest regional conference, American Liszt Society Festival, Northwest Suzuki Institute summer camp, Community Music Institute recitals, Carl Orff workshops, three high school summer music camps, and lectures from Robert M. Trotter Visiting Professors and the Steve Larson Distinguished Lecture Series.

The annual Vanguard Concert Series features 20th-century music in concerts and workshops. Nationally prominent artists give a public concert and hold workshops in which they read, rehearse, and record music composed for them by members of the Composers Forum.

The biennial Music Today Festival, founded and directed by Robert Kyr, is a series of concerts and cultural events that celebrates 20th- and 21st-century music from around the world. The festival features regional performers and ensembles as well as internationally renowned artists.

Jazz concerts and workshops by prominent artists offer opportunities for university students to perform. The Jazz Studies Program hosts the Oregon Jazz Celebration, an annual weekend festival that includes workshops for middle school, high school, and college jazz ensembles.

Since 1969, the School of Music and Dance has hosted the annual Oregon Bach Festival during a two-week period in late June and early July. The festival, founded by Helmuth Rilling and Royce Saltzman and now under artistic director and conductor Matthew Halls, combines an educational program in choral music for academic credit with the offering of some fifty public concerts and events. While the focus is Bach, major choral and instrumental works by other composers are programmed regularly. Distinguished soloists from around the world are featured with the festival chorus and orchestra. Every other year the School of Music and Dance offers a Composers Symposium in conjunction with the Oregon Bach Festival.

THEME (Theory, History, Ethnomusicology, Music Education)—a group of faculty members and graduate students interested in music research—meets three or four times a term on Friday afternoons to share the results of ongoing or recently completed research, discuss the profession of teaching and research, and hear guest speakers. Some recent guests are Anne Azéma, Michael Broyles, Thomas Christensen, Robert Duke, Allen Forte, Robert Gjerdingen, Douglas Hofstadter, Andrew Homzy, Vijay Iyer, Mark Johnson, Harald Krebs, Barbara Lundquist, Henry Martin, Margarita Mazo, Susan McClary, Ingrid Monson, Bruno Nettl, Alejandro Planchart, Harold Powers, Katharine Preston, Jihad Racy, Carl Schachter, Christopher Smith, Joseph Straus, Steven Strunk, Michael Tenzer, Alan Walker, and Keith Waters.

## Financial Assistance

For complete information about financial aid, including loans, see the **Student Financial Aid and Scholarships** section of this catalog.

## Scholarships

The University of Oregon School of Music and Dance gratefully acknowledges the generous contributions of individuals, foundations, businesses, and organizations that have established named endowed and annual scholarships for the benefit of music and dance students. More than \$500,000 is awarded annually in music scholarships. Although a large portion of these are allocated for undergraduate (<http://music.uoregon.edu/apply/undergraduate-music/financial-aid>) study, limited scholarship funding is also available for graduate students (<http://music.uoregon.edu/apply/graduate-music/financial-aid>). Information on music scholarships is available from the music admissions office of the School of Music and Dance, on the school's website, or by telephone, 541-346-1164 or -5664.

Admitted undergraduate and graduate music majors are eligible for scholarships, which may be granted for up to four years. Most music awards are given on the basis of musical achievement and academic accomplishment. Some are given on the basis of financial need. To determine scholarship recipients, the music and dance faculty relies on the applicant's academic record, application file, and an audition. Applicants are strongly encouraged to audition in person; however, recorded auditions are also considered.

## Graduate Teaching Fellowships

A limited number of Graduate Teaching Fellowships are available to admitted graduate music and dance majors. In addition to the fellowship stipend, tuition and health insurance coverage is paid by the university. For more information, applicants should contact the assistant dean of admissions and financial aid (<http://music.uoregon.edu/apply/graduate-music/financial-aid>) at 541-346-6191 or the Department of Dance at 541-346-3386.

## Performance Studies

Courses in performance studies are listed with the MUP subject code. Fees are required. MUP courses fall into two general categories:

- Basic and Intermediate Performance Studies: MUP 100–163.
- Performance Studies: MUP 171–191, 271–291, 341–361, 371–391, 471–491, 611–631, 641–661, 670–691, 741–761, 771–791.

Enrollment in any performance studies sequence must be preceded by an audition. Auditions are conducted to establish details (e.g., level, credits) for registration.

Students must register for at least 2 credits of performance study. The number of lessons per term is determined in consultation with the instructor. Typically, the number of lessons per term is one less than the number of weeks of instruction in the term.

Enrollment in performance studies is sometimes limited because of faculty teaching loads. Under such circumstances, priority is given to continuing music majors. Students who are not assigned to a faculty member may study with a graduate teaching fellow for credit at extra cost.

Juries must precede advancement from one level to the next.

Performance studies courses carry 2 or 4 credits per term. Students giving recitals must be enrolled in performance studies. During the term of the recital, students may also enroll in Reading and Conference: [Topic] (MUS 405) or Reading and Conference: [Topic] (MUS 605). The number of credits—up to 4 for Reading and Conference: [Topic] (MUS 405) or Reading and Conference: [Topic] (MUS 605)—is determined by the instructor. Prerecital hearings are required to evaluate the student's readiness for public performance. After the recital, a faculty evaluation is required. If approval is given, the recital is formally acknowledged as a fulfilled degree requirement.

For details concerning levels, repertory, and any other questions, please contact the individual studio faculty members.

Piano studies students at the Performance Studies: Piano (MUP 171) level or above have an accompanying requirement, described under **Ensemble Requirement** in the Undergraduate section.

## Admission

Students who are eligible for admission to the university may apply to the School of Music and Dance as music majors. For information about admission to the University of Oregon, refer to the Admissions (<http://catalog.uoregon.edu/admissionto graduation/admissions>) section of this catalog.

## Application Procedure

1. Complete the University of Oregon application for admission
2. Review the school's undergraduate music major admission requirements (<http://music.uoregon.edu/apply/undergraduate-music>)
3. Complete the school's online application (<http://music.uoregon.edu/apply/undergraduate-music>)

For audition dates and submission deadlines for recordings and portfolios, visit the undergraduate music admissions website.

## Auditions

In many degree programs, the audition is the most important factor in determining admission to the School of Music and Dance. As part of the admission process, applicants to most music degree programs must either audition (in person or via recording) or submit a portfolio (the option for applicants to the music technology program). Students who submit recorded auditions may be required to audition in person upon arrival on campus. Auditions for admission are held in November, January, and February. Each student who auditions for admission is automatically considered for a music scholarship. For more detailed information about repertory and procedure, visit the School of Music and Dance admissions website (<http://music.uoregon.edu/apply/undergraduate-music>). (<http://music.uoregon.edu/apply>)

An audition is not required for admission to the BA or BS general music or popular music studies concentrations.

## Jazz Studies

Students who want to enter the jazz studies major have two auditions: one is specific to jazz; the second is a classical audition that serves an important advisory role. In addition, a placement examination specific to jazz studies is required of transfer students wishing to enter the program.

## Music Technology

Students who want to enter the music technology program must submit a portfolio. A classical audition is not required for admittance to the bachelor or science music technology degree program. However, students admitted only on the basis of a portfolio are only considered for the music technology program and are not eligible to pursue other degree programs within the school.

## English Language Proficiency

Scores for the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) are required for students whose first language is not English. For admittance as an undergraduate music major, English language proficiency requirements must be met by one of the following: a minimum total TOEFL score of 575 on the paper-based test or a minimum total score of 88 on the Internet-based test; a minimum total score of 7.0 on the International English Language Testing System (IELTS); or completion of all required Academic English for International Students (AEIS) course work.

## Placement Examinations

Incoming music majors take an online musicianship diagnostic, which is designed to assess basic skills in theory and ear training. In addition, all transfer students are required to take a music core placement examination, which determines level placement in music theory, aural skills, and keyboard skills courses. Incoming freshman students may choose to take the music core placement exam (for the purpose of testing out of part of the music core). Study guides for the placement are available from the music undergraduate office.

## Admission to a Specific Degree Program

Initial admission to the school is as a general music major. The only exception is for majors in music: jazz studies or in music with the music technology concentration, who, upon acceptance, are directly admitted to their respective major programs.

Official admission to one of the degree programs listed in the table below typically occurs after the student successfully completes two years of core studies. Students seeking a bachelor of arts in the music history and literature option may apply at the end of their first year, after completion of College Composition I (WR 121) and Music in World Cultures (MUS 358). Procedures and requirements for admission to specific degree programs in the School of Music and Dance vary significantly. Additional information is available from the undergraduate office.

## General Requirements

In addition to the general university requirements for bachelor's degrees (see the **Registration and Academic Policies** ([http://catalog.uoregon.edu/admissiontograduation/registration\\_policies](http://catalog.uoregon.edu/admissiontograduation/registration_policies)) section of this catalog), all undergraduate degrees in music require the following:

## Satisfactory Progress toward the Degree

Satisfactory progress toward the degree is monitored every term by the director of undergraduate studies.

Courses must be taken for a grade if the graded option is offered. Majors must earn a C- or better in every course—including courses taken outside the School of Music and Dance—required for their degree program.

Students are allowed two attempts to earn a grade of C- or better in any course required for a music major. A student who receives a grade of D+ or lower or a mark of W (withdrawal) or I (incomplete) for a required course is placed on probation. Probationary status must be removed by the end of the next term in which the course is offered. Any student who fails to fulfill this probation contract is dropped from the major.

Candidates for the BMus, BMME, BA in music (history and literature concentration), BA in music (theory concentration), or BS in music (music technology concentration) who have been in residence for two years but have not successfully completed the two-year musicianship core are placed on probation as music majors. If these courses have not been completed by the end of the third year, the student is suspended from the

major. Reinstatement to the major occurs automatically once the courses have been successfully completed.

Candidates for a BMus in music: music performance or a BMME in music education must advance to the next performance level at least once every five terms.

Undergraduate music majors reenrolling after two or more consecutive terms of nonenrollment in the music major curriculum (excluding summer session) are required to petition for readmission to the music major. Depending on the results of this petition, a student may be required to reapply for music major admission through standard music admission processes or reaudition for level placement in performance studies as a music major. Placement exams in theory, aural skills, and keyboard skills may also be required. In addition, undergraduate majors admitted to a specific degree program prior to being unenrolled for two or more consecutive terms may also be required to reapply for admittance to that specific degree program by their major department or area. Students studying abroad or in an approved exchange program are exempt from the readmission petition requirement.

## Entrance Examinations

Before their first term of enrollment, students who are admitted into a graduate music degree program must take entrance examinations in music theory, aural skills, and music history. These examinations are administered before each fall term during Week of Welcome.

Students who score below 70 percent on the music theory and aural skills portions of the Graduate Entrance Exam are strongly advised to attend the Graduate Enrichment Laboratory, a focused tutoring session that meets regularly during the academic term. At the end of one or two terms of the lab, students take a second proficiency exam measuring their abilities. Students must pass either the Graduate Entrance Exam or subsequent proficiency exam in music theory and aural skills before enrolling in graduate-level music theory courses.

Students scoring between 50 and 69 percent on the music history portion of the Graduate Entrance Exam are required to take an extra music history survey course from the MUS 660–665 series (in addition to any MUS 660–665 courses required for the degree). Based on the test results and demonstrated areas of weakness, members of the musicology faculty determine one or two of the survey courses to be taken by the student.

Students scoring below 50 percent are required to take Survey of Music History (MUS 267), Survey of Music History (MUS 268), and Survey of Music History (MUS 269).

For additional information, contact the music graduate office or consult the Info for Grad Students (<https://music.uoregon.edu/current-students/info-graduate-music-students>) website.

At least one-half of the required credits must be in courses intended for graduate students only.

When a graduate student is required to enroll as a full-time graduate student (e.g., doctoral year of residency, graduate teaching fellow), the student may not use undergraduate credits as part of the required 9

graduate credits for full-time enrollment. However, undergraduate credits that exceed the 9 graduate credits are acceptable.

<sup>3</sup> Students with a primary or supporting area in composition must take Music in the 20th Century (MUS 665).

**General Degree Requirements**

**Other courses.** Eight credits of nonmusic courses (excluding basic language courses taken to fulfill the language requirement) chosen in consultation with the faculty advisor. Students in the DMA program in music performance (collaborative piano option) must take courses in art history to fulfill this requirement. Students in the PhD program in music education are exempt from this requirement.

**Ensemble.** After conditional admission, students with a primary or supporting area in piano performance must enroll in three terms of piano accompaniment courses (The Collaborative Pianist (MUS 521), The Collaborative Pianist (MUS 522), The Collaborative Pianist (MUS 523)). Students with a primary area in music performance (collaborative piano option) must enroll in three terms of chamber ensemble accompaniment courses—Chamber Ensemble: [Topic] (MUS 694). Students with a primary or supporting area in voice, wind, string, or percussion performance must enroll in three consecutive terms of band, chorus, or orchestra, and they must audition for ensemble placement before each fall term. Students with a primary area in voice may substitute Opera Workshop (MUS 698) for chorus.

In making assignments, a faculty auditioning committee and the performance instructors give priority to the University Symphony Orchestra, University Singers, Chamber Choir, and Oregon Wind Ensemble. Assignments take into account the student's preference, level of ability, major performance medium, educational and musical needs, and the needs of the school's ensembles.

**Language.** PhD candidates, except those in music education, must demonstrate proficiency in a second and third language, usually chosen from French, German, and Italian. DMA candidates must demonstrate proficiency in a second language, usually French, German, or Italian. Students with a primary or supporting area in voice must complete two years of college study in French, German, or Italian and one year of college study in each of the other two.

## Program Requirements

### Comprehensive Examinations

Written and oral comprehensive examinations in the primary and supporting areas are taken before advancement to candidacy but after meeting the following conditions:

1. Completion of core course work
2. Completion of all course work and additional requirements (e.g., recitals, CD recording, capstone presentation) in the examination area
3. Satisfaction of all general degree requirements (not mandatory if the supporting area exam is taken before the primary area exam)
4. Approval from area advisor

Additional information about comprehensive examinations is available from the music graduate office and the advisor.

### Advancement to Candidacy

Advancement to candidacy is based on successful completion of comprehensive examinations, approval by the advisory committee of the dissertation or lecture-document proposal, and the recommendation of the advisor.

### Dissertation

A dissertation is required in all doctoral degree programs except the DMA in performance, for which a lecture-document that focuses on some aspect of the performance medium may be substituted. Students in the DMA data-driven instruments track are required to complete a digital portfolio dissertation.

For candidates whose primary area is composition, the dissertation must be an original composition of major proportions composed during doctoral study and performed and recorded on the University of Oregon campus.

### Time Limit

Doctoral students have seven years from the term of matriculation to complete the degree. All course work, the comprehensive examinations, any required recitals, and the dissertation must be satisfactorily completed before the end of the seven-year period. If this period is exceeded, an additional year of residence or a new set of comprehensive examinations or both are required.

Research (MUE or MUS 601), Dissertation (MUE or MUS 603), and Reading and Conference (MUE, MUJ, or MUS 605) are available during summer session only with advisor's consent.

### Final Oral Defense

A final oral defense is required in all degree programs. The candidate is expected to defend the dissertation or lecture-document and show a command of the primary area. Members of the dissertation or lecture-document advisory committee typically conduct the final examination; their appointment is subject to approval by the dean of the Graduate School.
